-2-

who have imposed upon or abused the peasants, mostly the members of the secret police. There have also been actions against peasants who have identified themselves with the regime or have been used as tools of the regime. It must be said that the Krizari have inspired quite a fear among the secret police.

In the northern part of Groatia the Krizari are operating in the districts of Belovar, Koprivnica, Ludbreg, Ivanic Grad and Krizevac, using as their hiding places the vicinity of Rilo Gora, Kamnik. In Slovonia they are in the Papuk and Krndija. They are reputed also to be in the mountains around Petrenja. Purging activities against them were undertaken at the beginning of this year by special troops under the command of the secret police officers.

Elsewhere the Krisari operate in Hersegovina, in places where Croatian Catholic peasants live; also in similar districts in Bosnia. Purging activities on a considerable scale have been undertaken against them in those areas.

25X1

As to their arms, there are enough hidden arms in the country, especially among the peasants.

25X1

As to the number of Krisari, it is difficult to tell. The Government does not give any publicity to such actions, and all the public knows is from rumors.

the Krisari are "very strong" around Belovar, Koprivnica, Ludbreg.

25X1

in some areas in northern Creatia, some parts of Bosnia and Herzegovina is a dangerous undertaking. It is certainly true that members of the secret police feel very insecure in those districts.

5X1

However, the Krizari are a potential force which could develop into a great danger to the regime if they get proper guidance, leadership and a program, and if they can get wider support from 25X1 some exiled Croatian politician.

25X1

The whole movement is a hopeful sign that the nation is not being subdued, but if it does not get proper leadership, program and aid, the whole movement will not have a chance to succeed and will be crushed by the overwhelming and ruthless forces of the Government.
